A Graff tour is an exciting mixture of both the history of graffiti and what is happening today on the streets. The tours are fun, educational, and current. Our tours show all types and kinds of public art including classic graffiti, wheatpaste, stencil art, and much more. Our tours adapt to the art as it is being created and changed creating an ever changing tour of the art of the streets. Artists you might catch on this tour include Os Gemeos, Shepard Fairey (OBEY), Space Invader, and JR.

We then take a hands-on approach to what we learn and create a collaborative mural with spray paint.
